THE SNAKE AND GREEN RIVERS

How Their Waters Could be Diverted to the Salt Lake Basin and the Lake-A Beeswax Refinery.

Mr. Fred Trimmer, who is now in Denver, has addressed the following letter to the chamber of commerce of this city. The surgestions made therein should receive the careful consideration of that body:

President Salt Lake Chamber of Commerce: Dear Sir: While empared upon the prepara-lon of a paper bearing upon the natural catures of this section, with a view to commu-nicating the same to the Royal Geographical owicty (Eng.), of which I am a member, severa cts have attracted my attention, and I think wise to bring them before the notice of this

himber.

By examining the physical conditions in and round the Salt Lake basin, the fact is disclosed hat the level of the Green river, in Wyoming, and the Sanke river, in Raho, is above the ele-ation of the Great Salt lake, from which basin,

is maps, could be submerged with-he lake too much above its present. I am teld it can, to prove the levels and possibility the rivers into Great Salt lake are

national rather than local enterprise. But the titiness of Salt Lake city might discuss the nation and make the necessary surveys to col-cet such data as shall demonstrate the propo-tions, which are only attempted to be outlined

"What does this mean?" inquired a Hersald reporter of Johnson, Pratt & Co., along the streets, and soon sweet strains of pointing to the small advertisement inserted in THE HERALD a few days since, which said they would buy all the beeswax in the territory, paying the highest

market price.

"It means just this," said Charlie Johnson, of V. T. R. fame, "my father was a lover of bees and honey. At one time he had more than two hundred hives of them. They produced much honey, and some bees wax. I remember that we did not take as much pains to save the wax as we might have done, simply because there was no positive market for it. True, there was always a call for a little, and we saved all we could sell. I used to think it a great pity, for I consider waste of anything a vampire on the body industries. I am certain that there is many thousand pounds of beeswax wasted in this territory every year for the reason given. For some time, since Mr. Pratt and I have been in business, we have thought of this move, and had some correspondence with eastern dealers. We have at length conditions of their receipts and the seemed walling to decire the condition of the consecution of the graves of those who had fought and died in the cause of truth and right. In the after moon to the inspiring strains of music the children enjoyed themselves in the dance, and in the evening the young people of orangeville and Castle Dale tripped the light santastic untill all seemed walling to decire the children to come unto me, "etc., which also represents Jesus blessing little children. After marching through the principal streets, they then repaired to the Social hat which had been prepared for the occasion, and listened to a programme of songs, recitations, etc. Mr. Alexander Johnson, principal of Emery Stake academy, briefly reviewed some of the scenes through which was thought of this move, and had some correspondence with eastern dealers. We have at length of the children.

Or after marching through the principal streets, they then repaired to the Social Mattern. After the condition of the constitution, and the streets, they then repaired to the consultance. After marching through the principal streets, they then repaired for the consultance. After marching through the principal streets, they then repaired to t

"In what shape will you market it?"
"It is our intention to establish a refining house, where we can put it through a process to extract all foreign matter, making it a bright, yellow, clean product, mould it into various square bricks of stated weight, pack it in cases and endeavor to build up an industry under our name."
"How will you arrive at the value of the various qualities!"
"By examination and experiment we can used."

"By examination and experiment we can used."

"It is our intention to establish a refinity of a bountiful barvest is good, and you hear some of the farmers surmising, what are we going to do with our lineers. Hay cutting will commence in about two weeks and from that time until fall work will be more plentiful than men, as it seems each man has more hay than he can take care of. But they have push and muscle.

'By examination and experiment we can |

found on his person. One day latter the constable arrested Frank Howard, a boy constable arrested Frank Howard, a boy constable arrested Frank Howard, a boy constable arrested Frank Howard, and Arthur constable arrested Frank Howard, a boy aged about seventeen years, and Arthur McCleilen. They gave conflicting accounts of themselves, and Williams, not knowing of the other parties' arrest, swore that he obtained the property found on his person from Arthur McCleilen. No satisfactory explanation was given by the prisoners of how they came by the property, and they were held to await the action of the grand jury. Besides the above, twenty two rings were found on the person of McCleilen. ere found on the person of McClellen Brigham City, June 15, 1890.

### IN ASHLEY VALLEY.

A Young Man Accidentally Shot While at a Party-A Little Mining Breeze.

a family and, we finderstand, many rela-tives throughout the territory.

A young man by the name of Johnson accidentally shot himself at a party a few nights ago. The bullet took effect in his lower extremeties and will not prove fatal. Mr. Trimmer's Suggestions to the Chamber of Commerce.

Quite a cold spell has been experienced here recently. It lasted for almost a week, and was neither preceded nor accompanied by any other storm than winds.

The asphaltan mines, on the west of the valley, are being worked more or less, the digring being chiefly done by the freighters—every man getting his own load. Quite a mining excitement prevails among certain classes. Owners of claims feel confident that the treasures of the earth abound in the mountains, the headquarters of which are in their respective

There is an abundance of coal right here in the valley. It can be had for \$3 per ton. Ashley, June 15, 1890.

COAL IN IDAHO.

The valuable Discovery Made in Our Neigh boring Territory.

A gentleman up from Succor creek, who

has examined the coal mine opened up by John McMahon, says there is no doubt about this being a very important discov ery in its bearing upon the industries of this country. Two veins of a very good quality of lignite have been developed the level of the Green river, in Wyoming, the level of the Smile river, in Itaho, is above the element of the Smile river, in Itaho, is above the element of the Great Salt lake, from which basin, eyer, they are each separated by a divide so great altitude. So much so that by the struction of artificial channels these waters have been at the salt Lake basin, as a guide figure which I have been at the salt Lake basin, as a guide figure which I have been at the salt Lake basin, and from their pitch, indicate that they will run together and become one vein in less than one hundred feet in. The coall in the typical the salt Lake is the salt Lake basin, and in the salt Lake is the salt Lake basin are the salt Lake basin, and in the salt Lake basin are to obtain from the first base with a non-hundred feet in. The coall in the veins of the salt Lake basin, and in the salt Lake basin, and in the salt Lake basin, and in the salt Lake basin. there to obtain from the relifronce, in each case these weins is free from the gypsut and bear the markenile feat of directleg these great rivers into the freeze Sall lake, hereby retaining in the interior of the continent a vant hody of rater now wasting in the oscan.

The volume of water in each of these streams spready than all of those together now disharding into the sall Lake basin.

The ulinity of such an undertaking is so vast that I do not propose to detail it here. Briefly, lowever, they are:

In-Lands algorithm such canals become available for settlement.

in the many, which during the larger partor are not used for introduce, which during the larger partor are not used for irrigation, will be display into Great Salt in he, and there will gradual permanent rise of its ievel. It rise will perhaps overflow the old lake who is proverment map as typing to the st and west. The area of this is combine 3.50 square miles.

In the maps, could be submerged with a typing to the standard to the standard to the standard to the standard the possibilities accompanied by the borings this coal is fully equal in quality to the smaller veins. When it is remembered that this deposit of coal lies in the maps, could be submerged withing the lake too much above its present level. I am toldit can, and so prove the levels and possibility to the lake too much above the present level. I am toldit can. his mines are as valuable as some o rich silver mines they seem destined to supply with fuel.—Silver City Arabanche.

Decoration Day at Orangeville

It being rather cold on the first of May, the superintendency of the Sunday school put off their May day festival until Deco ration day, thereby killing two birds with one stone. As early as eight o'clock in the morning many children were seen skipping music were floating over the beautiful burg of Orangeville, emanating from the brass band. As soon as the gong struck ten, with the band in lead the Sunday school formed into line to the number of nearly three hundred, with a company of

car for the reason given.

since Mr. Pratt and I have been in business, we have thought of this move, and had some correspondence with eastern dealers. We have at length completed arrangements by which we can sell all we can buy."

All what shape will you market it?"

COUNTY OF SALT LAKE. [SS.]

I. John C. Cuiter. clerk of the probate court in and for the county of Salt Lake, in the territory of Utah. do hereby certify that the foregoing is a full, true and correct copy of the order to show cause why an order of sale of real estate should not be made in the matter of the estate of Henry Lewis, deceased, as appears of record in my office.

In witness whereof I have bereunto set my hand and affixed the seal of said [SEAL] court this 25th day of May, A. D. 1890.

JOHN C. CUTLER, Clerk of the Probate Court.

By JOHN L. NEBERER, deputy clerk.

S. W. DARKE, attorney for executor.

Of the intention of the City Council to construct sidewalks on Commercial street, (designated as District No. 10.)

hear and consequent made thereto.

By order of the City Council of Salt Lake city, made May 20, 1820.

LOUIS HYAMS, City Recorder.

LEGAL NOTICE.

IN THE PROBATE COURT IN AND for Salt Lake county territory of Utah. In the matter of the estate of William B. Wilkinson, deceased, Notice.—Notice is hereby given that R. M. Wilkinson, C. G. Wilkinson and W. H. Wilkinson administrators of the estate of W. B. Wilkinson, deceased, have rendered for settlement, and filed in said court, their final account of their administration of said estate and petition for final distribution of the residue of said estate among the persons entitled thereto, and that Wednesday, the 5th day of June, A.D. 1890, at 10 o'clock a.m. at the court room of said court, in the county court bouse, Salt Lake city and county. Utah territory, has been duly appointed by the judge of said court for the settlement of said account and hearing said petition for distribution, at which time and place any person interested in said estate may appear and show cause, if any there be, why said account should not be settled and approved and final distribution made as prayed for.

Bated June 3, 1830.

JOHN C. CUTLER.
Clerk of the Probate Court.
By JOHN L. NESEKER, Deputy.

OF THE INTENTION OF THE CITY council to extend water mains on Third South street from midway oetween Ninth and Tenth East streets for culinary purposes only.
